

In Collaboration with the University of Manitoba
the Health Sciences Centre Winnipeg presents

THE 28th ANNUAL

BUG DAY

Overall Program Objectives:

By attending this program, the attendee will be able to:

1. State the names of the key pathogens that have been clinically and socially relevant over the past 27 years.
2. State how the determinants of health influence a person's risk for infection
3. State how to modify risk factors for the acquisition of infection

Thursday, October 17, 2024

Join us digitally by registering before Oct 16, 2024
